BEARS HAVE EASY MARKET SESSION

Lack of Buyers Causes Prices to Sag; War Shares and Industrials Weak.

NEW YORK, Oct. 4 .-- On a pronounced accession of offerings, liquidation of stocks assumed wider proportions today, taking in shares of all descriptions. At no time did the de-cline meet with more than casual op-position. Sentiment was preponderant earish and the shorts experienced no difficulty in extending their opera-

There was again no news to explain the more acute depression. Some of the day's advices were distinctly hope-ful, notably the review of the federal reserve board, which emphasized the improved business condition of the country. This was neutralized by August returns of some fifty leading raliroads, which reported an increase of about \$16,000,000 in operating revof about \$15,000,000 in operating revenues, all of which was lost in greater cost of production. War shares and industrials in general displayed increasing weakness in the face of such favorable developments as the awarding of additional large orders for supplies by home and foreign governments.

Absence of buying power constituted the most disconcerting feature of the market. Low records for the current movement and numerous instances for movement and numerous instances for years included representative rails like Great Northern, Chicago and Narthwestern, St. Paul preferred and Littimore & Ohio preferred. Extreme recessions of 2 to 6 points were made by active industrials such as steels, equipments, motors, oils and tobaccos, final quotations for the most part being within a fraction of the day's lowest levels. United States Steel recorded a net loss of 2%, effacing virtually all net lose of 2%, effacing virtually all last week's ten point rise. Bonds were heavy, Liberty ranging from \$99.98

MARKET REVIEW

(STRANDBERG. M'GREEVY & CO.)
Altho real liquidation still continues to
be a strong market influence, easier money
conditions improved sentiment and technical position favering the constructive side
have proven powerful enough to prevent serious declines.

Assective buying power still remains absent, Conspicuous weakness was indicated
in the tobacco stocks and the copper lots
also sold off.

In the tobacco stocks and the copper has also sold off.

The rail list failed to be impressed by the weakness in industrials and sold off only fractionally and shipping shares were firm.

In the face of depressing effects of con-

tifually sagging levels, the fact should not be forgoiten that prices are low and that stock now being accumulated by strong and patient hands must inevitably show good results.

For the present we do not expect stocks to go far in either direction. There will be alternate dips and rallies, which will offer good trading possibilities.

Chicago Grain.

CHICAGO, Oct. 4.—Reports that British military successes in Belgium bore promise of radical developments such as soon wiping out the German submarine bases near at hand, did a good deal today to induce free selling of corn. The close was nervous le to 1% c net lower at \$1.18% to \$1.18% December and \$1.15% to \$1.18% December and \$1.15% to \$1.15% to \$1.18% December and \$1.15% to \$1.15% may. Oats lost %c to 1% c provisions finished \$2c to 55c down except October ribs, which gained 42c net.

Bear pressure on corn reached the maximum shortly before the end of the session after word was circulated of a big British victory. At the same time reports were current of an embargo on grain shipments to Baltimore and that new difficulties were being encountered in getting permits at Washington for exports. Even from outset of the day's trading, however, prices had a downward alant most of the time, influenced largely by unsettled conditions in the security market and by references to lightness of money. Ideal weather for maturing late planted corn was also a bearish factor.

Falling off in export business made the oats market more than usually sensitive to weakness in corn. Heavy deliveries of lard on October contracts pulled down nearly the entire provision list.
